## SQC CTA

For chlorinated water

- ◆ Single SQC Prefilter to remove dirt/rust and protect the RO membrane.
- ◆ 13-19 gallon (49-72 liter) per day membrane.
- ◆ SQC Carbon Post Filter for excellent taste and improved flow at the faucet.

## SQC2

For non-chlorinated water

- ◆ Single SQC Prefilter to remove dirt/rust and protect the RO membrane.
- ◆ 22-33 gallon (83-125 liter) per day membrane
- ◆ SQC Carbon Post Filter for excellent taste and improved flow at the faucet.

## SQC3

For both chlorinated and non-chlorinated water

- ◆ Single SQC Prefilter to remove dirt/rust and protect the RO membrane.
- ◆ 22-33 gallon (83-125 liter) per day membrane.
- ◆ SQC Carbon Post Filter for excellent taste and improved flow at the faucet.

## SQC4

For both chlorinated and non-chlorinated water

- ◆ Dual SQC Prefilters provide additional membrane protection and sediment reduction.
- ◆ 22-33 gallon (83-125 liter) per day membrane.
- ◆ SQC Carbon Post Filter for excellent taste and improved flow at the faucet.

### SQC2, SQC3 & SQC4 Average Reduction Percentages

Arsenic	98.7%	Barium	97.9%
Cysts	99.99	Cadmium	98.6
Lead	98.6	Selenium	92
Dissolved Solids (TDS)	96	Chromium (Hexavalent)	91.3
Radium 226/228	80	Chromium (Trivalent)	94.1
Turbidity	98	Nitrate	84.5

For a complete list of contaminants removed, please refer to [www.waterfactorysystems.com](http://www.waterfactorysystems.com)

Third party tested and approved

- ◆ Unique SQC™ design allows for simple, sanitary cartridge change. An easy one-quarter turn provides:

Water with a  
**Twist**™

## SQC Pro

For both chlorinated and non-chlorinated water

- ◆ 40 gallon (151 liter) per day pumped system
- ◆ Ideal for low pressure applications, or where larger volumes of pure drinking water are desired.
- ◆ Dual SQC Prefilters provide additional membrane protection and sediment reduction.
- ◆ SQC Carbon Post Filter for excellent taste and improved flow at the faucet.
